## Happy Return to School

As parents and children get ready for a safe and enjoyable return to school, our course will help you to:

- Think about what you and child are looking forward to, so it's something exciting!
- Deal with any thoughts and concerns you or your child may have...so you can deal with them and positively look forward
- Practical hints and tips about strengthening routines and positive habits / behaviours to boost confidence
- How you can build on the work you've done during lockdown, make the most of any learning catch-up programmes available and keep calm about how long this will take...because it will take a while for everyone to 'return to normal'!
- Meet other parents / carers, so you can share experiences and help each other with a few tips and hints, as well as gain reassurance that everyone's feeling at least a little confused or unsure about the new school year
- Meet with some of the school team to ask questions, raise queries and gain confidence that they're all working tirelessly to make September as safe and enjoyable as can be!
